ROGATE SNEHA BHAVAN

REHABILITATION AND VOCATIONAL TRAINING CENTER FOR
THE STREET, SCHOOL DROPOUTS AND WORKING CHILDREN

"A Rogationist Educational & Charitable Program"

● ROGATIONIST PRESENCE IN NALGONDA

Rogate Sneha Bhavan at Nalgonda, Andhra Pradesh, is the first Mission Station of the Rogationist Indian Province. The community was established in 2010, upon the invitation of the Nalgonda Diocese, to rescue and rehabilitate street, dropout and working children, who are out of their homes for various reasons. These children are encouraged to choose from possibilities of rehabilitation, regular education, training in various trades and other life-coping skills which would inculcate in them self esteem and self confidence in order to be self reliant.

Our vision

To enable the individuals to take responsibility for the future into their own hands and to live independently.

Our Mission

To provide relief to children at risk of any age, race or religious belief.

● DIFFERENT ACTIVITIES OF ROGATE SNEHA BHAVAN

- Children are provided food, Hostel and their other basic needs are met. Medical care, non-formal education and recreational facilities too are available.
- Rogate Sneha Bhavan prepares the Street child either to go back home or to choose one of the rehabilitation programmes available at our center.

* **The Institute prepares the children below 13 years:** to join in classes that suit their age or skills training depending on their age and aptitude.

Reorientation Camp for the street children below 14 years: in the Camp the children are involved in various creative activities which help them to move away from the street life to a more settled and disciplined one.

Reorientation Camp for street children over 15 years: apart from preparing the boys to be reintegrated with their family, short term skills training courses are offered to equip the children to start an activity either in small group or alone.

The Institute also initiates 'Education Programs' for the youth to help in the rehabilitation of both street and working children.

● METHODOLOGY OF SELECTING CHILDREN

- Through visiting the railways station, bus stand and town
- Through visiting the villages
- Children who are recommended by different Social Organizations
- Children who are brought by our Volunteers
- Children who come by themselves
